

# WICKER AND WALKER STREET

- a) The Arches to be renovated to provide inexpensive work space for local businesses. Improvements to the public realm to create a gateway to the area and city centre.
- b) Improvements to the pavements generally (including better lighting, tree planting, new paving) to encourage new investment into the area and provide safer street for residents and visitors.
- c) Retain the historic street profile of the Wicker and encourage the renovation and enhancement of existing properties.
- d) Extension of the Sheffield 'Connect' scheme to include this area to improve signage for pedestrians and drivers.
- e) A new mini interchange on the Wicker comprising high quality bus stops/shelters and passenger information.
